This map is a semester-by-semester plan that covers your first three semesters to guide you toward choosing a major and graduating in four years. This map is not your only route; it is a suggestion. Not everyone graduates in four years as it depends on how many courses you can take, and how you do in those courses. The column to the left of the page suggests the ideal courses for you to take each semester. There are times when those courses may be full or unavailable the semester you plan to take them, in which case consider another course from a different semester with which you can switch.

The map is designed primarily for freshmen coming to college for the first time, trying to decide on a major. As soon as a major is chosen you can switch to the Academic Rhode Map of that program, that its department will provide, and need no longer follow this Map. Once you have chosen your major, contact the chair/director of that department/program to schedule an appointment to declare the major. You will then be assigned a faculty advisor within that department/program.

A complete listing of General Education courses can be found at the OASIS office, or online at [http://www.ric.edu/recordsoffice/Pages/College-Catalog.aspx](http://www.ric.edu/recordsoffice/Pages/College-Catalog.aspx); look at catalog for year you enrolled. These lists are partial and contain those courses recommended for the majors you are exploring.
