

RIC/CF INNOVATION LAB SPRING NEWSLETTER

Project Highlight – RIC/CF Innovation Lab

Parent College, an Innovation Lab cornerstone, presents a unique initiative that provides educational opportunities to parents, family members and caregivers from Central Falls. By offering families a variety of free classes and workshops, Parent College brings the community together, promotes additional growth and development, and positively contributes to children’s academic and social-emotional success. As the highlight project of this semester, we interviewed Patricia Martinez (CF Partner) and Jenifer Giroux (RIC Partner) for the Parent College project at the RIC/CF Innovation lab to talk about the essential elements that have led this project to success. (Watch on Youtube <https://www.youtube.com/watch?v=nF8ECJPJo9o>, or click on the picture above.)
