Welcome to Office Sway

Easily create professional-looking interactive reports, presentations, and more

Sway is an intelligent app for business that helps you and your colleagues express ideas using a polished, interactive, web-based canvas.

Get started with Sway

Create and share something new

Use Sway to easily create and share a polished, interactive, web-based canvas of your ideas with coworkers, stakeholders, and customers. Sway makes sure your creation looks polished and professional on any screen.

Effortless design

Sway’s built-in design engine takes the hassle out of formatting your various pieces of content by integrating them into a cohesive and professional layout. From there, you can easily adjust the design to create a look and feel that reflects the business audience you’re sharing with.

Add your content easily

Add your content easily: Sway saves you time by helping you easily find and pull together your images, text, videos, charts, and more without leaving the app. Sway is seamlessly integrated with your business cloud storage (coming soon!) as well as your devices and the web, so you can drag and drop your content right onto your canvas.
