Tracking Reports
By Scott Badger

You can generate reports on the following areas:

- Displays a summary of Course Usage by Content Area
- Displays a summary of activity in Discussion Board Forums
- Displays a summary of Course Usage for Groups
- Displays the average number of users, Courses, and page views per month

1. Below the Control Panel, click **Evaluation > Tracking Reports**.
2. The tracking report options.

**Run the Accesses by Content Area Report**

3. Click the chevron and then select **Run**.
4. Below section 2, select the students you want to be part of this report. (Note: Hold the Ctrl key down to select multiple students.)

   * Select an End Date: 8/3/2009
   * Select a Start Date: 7/1/2009

5. Select the End and Start Dates.
6. Click Submit.

7. You should see that your request is being processed.
8. The tracking report will automatically open once it has been processed.
