1. Using either the remote or the buttons on the unit base, push the **Menu** button.
2. Go to Setting – USB Connection.

3. Click the right arrow on the unit or remote to go to USB Camera.
4. Connect the **USB Cable** into the **USB slot** in the document camera unit. Connect the other end into a USB slot on the Lenovo Tablet (making sure the tablet is on).

5. Double click on the **AVerVision icon** on the tablet.
6. The image from the projector is now shown on the tablet. Use the stylus to draw on the image.
