Dragging your video clips between clips within the Timeline and the Storyboard

By Scott Badger

1. Drag the College Entrance (1) down to the Timeline between the Training and Tech Labs video clip

2. Now the College Entrance video has been added to the Timeline.

Dragging a video between video clips on the Storyboard
Rearranging your clips on the Timeline

1. In the Timeline, drag the College Entrance (1) to the right of the Tech Labs video Labs clip.

2. Now you’ve just rearranged a video clip in the Timeline.

Note: The lessons that deal with renaming, deleting, dragging, and rearranging video clips can be applied to your pictures and audio files.
