Fact Book 2025-2026

The Office of Institutional Research and Planning (OIRP) of Rhode Island College is pleased to present the 2025-2026 Fact Book. This is the primary publication of our office, providing a comprehensive look back at the previous academic year.

This publication continues to evolve with the OIRP office and RIC as an institution. In recent years we have made significant strides behind the scenes to streamline production while improving the visual quality of the presented data. One notable change this year is that information regarding the standardized test scores of recent admits has been removed. This change reflects our shift to test-blind admissions. Additionally, the former “Alumni” section has been updated to reflect the September 1st, 2025 merger of the Alumni Association and Rhode Island College Foundation.

There are other, smaller adjustments made as we adapt our data and presentation to the changing needs of the institution.

Thanks also go to the many offices and individuals that help us prepare the Fact Book each year, providing and reviewing data and making suggestions for improvement. We acknowledge the particular contributions and assistance of the following:

Adam Brusseau, Budget and Financial Planning
Carissa Delizio, Adams Library
Kevin Fitta, Finance and Administration
Carrie Miller, Web Communications
Soraya Sundberg, Office of Sponsored Programs
Marcia Selinger, Alumni Affairs
Greg Stewart, Human Resources

Mission Statement

By ensuring access to an intellectually invigorating liberal arts education and high-quality professional programs vital to our state's future, we provide opportunities for individuals to enhance and transform their lives; contribute to the advancement and wellbeing of families and communities; and bolster the overall quality of life, both in Rhode Island and across wider society.

Vision Statement

We are tenaciously striving to become Rhode Island's most student-centered institution of higher learning. This intentional focus will galvanize our efforts to: improve outcomes for all students; enliven teaching, learning, research, creative work, and service; and weave the College more tightly into the fabric of our state's distinctiveness.

Core Values

Consideration & Open-Mindedness

We treat one another with respect, strive to remain open to new ideas, and acknowledge the importance of considering multiple perspectives.

Academic Quality

We believe the most critical ingredients for a high-quality teaching and learning environment are: sustained, meaningful interaction between faculty and students; ongoing support for faculty to be leaders in their respective disciplines; an emphasis on opportunities for intensive engagement; and adherence to the principles of academic freedom and equitable access to knowledge.

Diversity, Equity & Inclusion

We are cultivating an inclusive institution that fosters diversity within our community and seeks to continuously improve equity in opportunities and outcomes for everyone.

Student Agency

We work in close partnership with each and every student to honor their individual aspirations, appreciate their unique needs, and do our best to ready them to thrive along whatever paths they choose.

Empowerment

We empower individuals to become increasingly adept at navigating their own avenues for growth and change as they pursue their goals.

Collaboration

We appreciate the inherent value of collaboration and its tremendous potential not only to improve our effectiveness but also to connect people who share a common purpose.

Accountability

We are responsive and accountable to a wider public – and to one another.

Community

We want RIC to be a place that welcomes – and works for – everyone, and to be an institution of which all students, employees, alumni, and the people of Rhode Island can feel proud.

Information Technology Services

The Rhode Island College Information Technology Services (ITS) department provides the campus community information technology services, including student systems, wired and wireless networks, telephones, event management systems, cyber security systems, email, classroom and lab services, learning management systems, lecture capture, training and many other technology related services. Information Technology Services offers services for the campus administrative systems, information security and the college Help Center. The Help Center is a single point of contact for information and assistance with classroom, desktop, network, and telephone technologies. The Help Center also provides audiovisual service and support for the campus.

Student Access computers are available in the Adams library for student use. The Adams Library also provides laptops and iPads for loan to Rhode Island College students. General public use computers are also located in the Adams library.

Rhode Island College has over 250 auditoriums, classrooms, seminar rooms, and conference rooms equipped with technology. This technology allows instructors to present teaching material to the students in a variety of ways; many of the conference rooms and classrooms are equipped with microphones and cameras to make our rooms HyFlex capable.
