This map is a semester-by-semester plan to help you toward graduation in four years. Not everyone graduates in four years as it depends on how many courses you can take, and how you do in those courses. This map is not your only route; it is a suggestion. You might take additional courses over the summer (or early spring/winter) to catch up or get ahead if the courses you need are offered at these times. While many courses in your major will have prerequisites that will need you to take them in a special order, there is some flexibility in this map, but always double check you have the correct prerequisites for a course you plan to take.

The column to the left on the other side of this page suggests the ideal courses for you to take each semester. There are times when those courses may be full or unavailable the semester you plan to take them, in which case consider another course from a different semester with which you can switch. The column on the right has "Checkpoints" for each semester that show where you should be by the end of that semester. You should work from this map as you plan each semester's schedule, before checking in with your advisor. The Map is designed primarily for freshmen coming to college for the first time, but transfer students may also use the Rhode Map with the understanding that they have most likely completed several requirements through transfer of credit, and will be starting further into the program. Maps assume a Fall start.

Two of the six courses at the 300-level must be selected from this list: POL 301W, 306, 307, 309, 318, 331, 333, 334, 342, 345, 346, 354, 355, 356, 358, or 359. It is recommended that you take these after you have completed both POL 300 and 308. These are the courses that have "writing emphasis."

The minimum total credit count for the major is 40 credits (depending on choices), and 40 credits for General Education, although 8 of those may be offset against one Gen Ed. course (SB and AQSR), which leaves 32 more credits of Gen Ed. and possibly 9 more depending on secondary language needs, and RIC 100, so the minimum total is 72 credits. This leaves 48 credits that may need to include two secondary language courses and RIC 100, but could also include a second major or a minor, or just taken as electives.
