FY 19	6,429	\$7,598
FY 20	6,278	\$7,615
FY 21	5,868	\$8,891
FY 22	5,266	\$11,385

CURRENT FY 2022

- Successfully advocated for \$5.9M increase in state appropriation
- Enrollments 7.5% lower than originally budgeted, resulting in \$6.9M in less tuition & fees revenue
- COVID relief dollars will be used to offset lost revenue for general education and auxiliaries.

In February 2022, the budget office projected FY 23, FY 24 and FY 25's operating results based on revised enrollment data:

FY 23 enrollments declining 9.5% from Fall 2021

FY 24 enrollments declining additional 6.4% from Fall 2022

FY 25 enrollments declining additional 3% from Fall 2023

This would have produced deficits of \$11.6M, \$17M and \$18.7M in FY 23, FY 24, and FY 25, respectively
